Lenexa, Kansas

### **PROFESSIONAL REGISTRATION**

Professional Engineer-      Kansas, 2013  
Missouri, 2014

### **PROFESSIONAL MEMBERSHIPS**

KCITE, ITE, MOVITE, KAUTC

### **STATEMENT**

The last three years serving on the KCITE board has been a wonderful learning experience for me. I have had the opportunity to build relationships with other professionals, gain technical experience by organizing training opportunities, and develop management skills by overseeing the training and arrangements committee as well as manage the bookkeeping for the organization. I hope to continue this experience as President of KCITE. I would like to continue to provide Chapter Meetings that are interesting and will educate attendees of exciting projects or new practices being used in traffic and transportation engineering fields in the Kansas City Metro. Additionally, I would like to continue to develop the KCITE website as well as expand membership by promoting the organization in new ways.
