STATEMENT

The past year as Secretary/Treasurer was an experience I will always remember. The personal dealings with membership and the financial needs of the organization was a rewarding experience. Getting to know the members of KCITE and the board to me was a very positive. I have had the great opportunity to learn and build relationships with other professionals, gain technical experience by taking part in the training opportunities and managing the financial needs of KCITE.

I hope to continue this experience as Vice-President. I will work diligently with the KCITE Board and the KCITE members to support and maintain this quality organization.

I look forward to the duties required as Vice-President and the personal and professional opportunities to serve and to grow that I know it will provide.
